

PRODUCT NO.: 5617

Gloves, ESTEEM, Sterile Nitrile Exam, Size S – 10.6”, 4.7 mil

Description: These single use sterile gloves with beaded-cuff provide extra protection when handling hazardous drugs during sterile compounding procedures and other related chemotherapy activities. They are resistant to puncture, abrasion and snag.

FEATURES:

-  Powder-free
-  Extended cuff with a minimum length of 10.6 in
-  Minimum fingertip thickness of 4.7 mil
-  Sterile, individually wrapped gloves
-  Comply with USP <800> and USP <797> standards for the safe handling of hazardous drugs during sterile compounding procedures
-  Tested for use with chemotherapy drugs per ASTM D6978
-  Beaded cuff to reduce glove roll down and ripping
-  Textured surface helps improve wet and dry grip
-  Ambidextrous

*Chemical permeation and chemotherapy drug resistance data will be provided upon request. Users are advised to review the material safety data sheet for the chemicals being used to determine the required level of protection.

TECHNICAL SPECIFICATIONS:
