Eliminate all sources of ignition. Store in accordance with local regulations. Do not store in unlabeled containers. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Use appropriate containment to avoid environmental contamination.

**CONDITIONS FOR SAFE  
STORAGE**

Store away from incompatible materials, in a well-ventilated area. Eliminate all sources of ignition. Store in accordance with local regulations. Do not store in unlabeled containers. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Use appropriate containment to avoid environmental contamination.

**STORAGE CONDITIONS**

Store in original container, tightly sealed, protected from direct sunlight and moisture.

The freezing point of ISOPROPYL PALMITATE, NF is 10 - 14 °C (50 - 57.2 °F). Product is not affected by cycling between freezing and thawing conditions as long as label directions are followed.

Product can be left at room temperature or in a controlled-temperature water bath to thaw. Gently stir or tumble the container to ensure it is homogenous.

If a hot room (50°C / 122°F) is used to thaw the product, the latter must be removed from the room as soon as complete liquefaction is achieved, as prolonged high temperature storage may reduce shelf life.
