

Labconco® Purifier® Vertical Clean Bench, 4'

Description: Purifier® Vertical Clean Benches deliver a continuous flow of HEPA-filtered air over the work surface to protect your work from airborne contaminants, providing ISO Class 5 air cleanliness. Ideal for applications such as pharmacy compounding, tissue culture, media preparation, electronics inspection, and medical device assembly. While they offer excellent product protection, these benches do *not* provide user protection and should not be used with biohazardous materials, toxins, or radionuclides.

**Note: Base stand and work surface not included.

**Note: Additional configurations available upon request. Please contact us for details.

Features:

- ISO Class 5 air quality with 99.99% efficient HEPA filtration
- Vertical airflow protects your work from particulate contamination
- Disposable prefilter extends HEPA filter life
- Variable speed blower with intuitive user control
- UV light option for added sterilization (select models)
- Guardian™ Airflow Monitor (optional) alerts to airflow issues
- Energy-efficient LED lighting
- Ergonomic sash height and angled sash for easy access
- Durable Glacier White and Slate Gray epoxy-coated steel construction
- Easy-clean interior with tempered safety glass sides and sash
- Rear wall pass-through ports for cable routing (select models)
