

AirClean® Vertical Laminar Flow Workstation, 4'

Description: AirClean® Systems Vertical Laminar Flow Workstation is ideal for non-hazardous applications that require a clean work area. These compact, lightweight workstations provide positive-pressure, ISO 5 air throughout the chamber and sash opening, thus keeping airborne particulate away from sensitive applications. Given the small footprint and ease of installation, this series is an excellent choice for mobile 'clean zones' within your facility.

**Base stand not included. Sold separately.

Features:

- UVtect™ microprocessor controller provides continuous HEPA filter monitoring with audible and visible alarms
- ISO 5 vertical laminar flow air
- 360° visibility
- Integral polypropylene base for easy cleaning
- All thermoplastic construction
- Built-in fluorescent light
- Pass-through port
- HEPA filter monitor automatically indicated when filter change is required

Technical Specifications:

External Dimensions: W x D x H (cm/in)	122.0 x 61.0 x 81.3 / 48.0 x 24.0 x 32.0
Electrical	110 V
Lighting	Fluorescent
