

## MD Ophthalmic Dropper Bottles

5 mL, Sterile, Ready-to-fill, Clear with White Caps and Tips

**Description:** Introducing the newest product to the MD® family: MD Ophthalmic Dropper Bottles! These sterile dropper bottles come with a unique & ergonomically designed packaging tray (Patent Pending) that allows for quick and clean filling without removing from packaging. The tip cap is partially fixed in the cap, which eliminates the need to touch the tip. Caps can easily be put onto bottles once filled.

### Features:

- Clear color
- Suitable for various formulations and viscosities
- Available in 4 tray pack sizes: 2, 10, 20 & 50/tray
- Automatically locking tip cap once cap is screwed on tight
- Smooth & large surface area that is suitable for easy placement of labels
- Each tray comes with a single plastic bag with a tear notch that allows for easy opening and use in a sterile environment

### Technical Specifications:

Bottle height with cap (mm)	57
Bottle surface height (mm)	22
Width (mm)	22
Material	Bottle: LDPE / Cap: HDPE
Standard drop size	50µl with water
