

PRODUCT NO.: 9701

Metal Ointment Tube with Applicator Tip and Black Cap, 1/8 oz

Description: This metal tube provides an airtight barrier for products while eliminating air transfer and the “suck back” effect. It is durable and lightweight, and provides an ideal packaging option for creams, gels, ointment and other semi-solid products. The inside is lined with a special coating to allow for a perfect crimped seal. Metal clips included for each tube.
