

Ohaus Pioneer Series Balance, 220 x 0.0001 g

Description: The Pioneer Series Balances combine essential weighing functionality with competitive performance, offering high accuracy and repeatability for applications in laboratory, industrial and education settings. Affordably priced, intuitively designed for intelligent operation with a second line display for additional information, and USB and RS-232 connectivity for easy communication.

Features:

- Internal calibration
- Featuring a cast metal lower housing, sub-pan and stainless-steel weighing pan, the Pioneer is durably constructed for versatile, long-term use.
- Pioneer features a second line display for additional information or guidance, a static removal bar for convenient grounding, and USB connectivity.
- GLP/GMP data output capability to ensure compliance.
- Six standard modes including weighing, parts counting, percent weighing, dynamic weighing, density determination and formulation.
- Equipped with USB and RS232 connectivity ports to allow easy communication.
- Features power saving functions that make it environmentally friendly, including auto-off and brightness setup.
- A static removal bar provides a convenient grounding location.
- Large viewing angle with bright backlit LCD display.

Technical Specifications:

Model	PX224
Maximum capacity (g)	220.0
Readability (g)	0.0001
Repeatability, typical (std. dev.) (g)	0.0001
Linearity (g)	±0.0002
Stabilization time (sec)	3
