PREP MAT (Sterile)

12" x 16"

DESCRIPTION: These prep mats enhances workbench safety for technicians, nurses and pharmacists when handling or administering chemotherapy drugs. The upper layer allows even distribution of liquid, the middle layer gives excellent absorption properties and the bottom layer provides a solid defense against leakages.

FEATURES:

-  Highly absorbent middle layer
-  Low-linting
-  Latex-free
-  3-layer construction
-  Mesh upper layer for even distribution
-  Impermeable bottom layer

TECHNICAL SPECIFICATIONS:

Dimension, W x D (cm / in)	56 x 40 / 22 x 16
Dimension Tolerance	±5%
Weight (gsm)	210
Color	Blue
Mean Sorptive capacity (mL/m ²)	852, 191 mL/prep mat
Sterilization method	Gamma irradiation
Compatibility	ISO Class 5 & EU GMP Grade A
