## **ELECTRIC TABLET/PILL COUNTER**

10.5"W x 12.5"D x 5.5"H, Sizes 000-5, Counts 600 pills/min, Max Digital Readout: 1000 units, 110V

**DESCRIPTION:** Save time and money while putting an end to manual pill counting! The HISPAC RX4 is a high speed, fully automated counter that will fill single or multiple prescriptions, prepackage, or take inventory with a simple touch of a button. The predetermined count falls into the top drawer while excess pills automatically drop into the bottom drawer for return to stock.

### **FEATURES:**

- ✔ Counts swiftly and accurately to 1000 then automatically restarts the count at one
- ✔ Patented gate controls flow of pills past an eight element, ultra-sensitive multi-sensor, assuring an accurate count every time
- ✔ Counts up to 600 pills per minute
- ✔ Capsule/tablet sizes: #000 down to a small saccharin tablet (approx 3/16" or 4mm)
- ✔ Solid state electronics with a durable ABS plastic housing
- ✔ Compact - measures 10.5"W x 12.5"D x 5.5" H and weighs only 7 lbs
- ✔ Self-cleaning turntable - wiper blade cleans as it turns
- ✔ Automatic signal indicates when sensing area needs cleaning
- ✔ Power requirements: 110V AC
