

## Samix® Constantia

**Description:** The Samix® Constantia is a compact, high-efficiency mixer designed to simplify modern compounding. Its intuitive touchscreen interface and compatibility with standard Samix accessories help streamline daily workflows, delivering consistent, high-quality results every time. Standing under 55 cm tall, it fits easily beneath most powder containment hoods for USP <800>-compliant environments. Durable, energy-efficient, and reliable across batch sizes from 15 mL to 1000 mL, the Constantia brings dependable performance to any compounding space.

\*\*Note: Mixing blades and jars required for operation are sold separately.

### Features:

- Supports batch sizes from 15 mL to 1000 mL, ideal for a wide range of routine compounding needs
- High-resolution touchscreen offers intuitive setup, monitoring, and repeatable mixing parameters
- Compact footprint with a sub-55 cm height, designed to fit comfortably beneath most containment hoods for USP <800>-compliant setups
- Durable brushless motor and precision mechanical lift ensure consistent performance with minimal maintenance
- Fully compatible with standard Samix accessories, enabling seamless integration into existing workflows
