

PRODUCT NO.: 7483

STRAIGHT PLUG STOPPER (20mm, Gray)

Ultra-Pure Bromobutyl, Siliconized

DESCRIPTION: This design provides maximum sealing for vials with a straight-wall glass finish. The straight plug stopper locks in to the interior of the vial's neck, providing a tight seal and keeping the stopper from backing out.

FEATURES:

- Manufactured from an ultra pure bromobutyl formulation with extremely high chemical purity and low gas permeability
- Free of latex, nitrosamines and 2-MCBT (2- mercaptobenzothiazole)
- Compatible with applications such as Water for Injection (WFI) where rubber extractables can cause problems
- Complies with US, European and Japanese Pharmacopeias
- Low particulate content and low level of extractables
- Very well suited for ready-for-sterilization and ready- for-use applications
- Autoclavable

TECHNICAL SPECIFICATIONS:

- Durometer: 47
- Style: Straight Plug
- Rubber Material: Gray Bromobutyl, Siliconized – Ultra Pure Formulation
