

## Air Science® Purair® FUMEBOX™, 2'

**Description:** The Air Science® Purair® FUMEBOX™ provides a compact, ductless solution for safely handling chemicals, vapors, and powders in low-volume applications. With clear panels for full visibility and a portable, modular design, the FUMEBOX is ideal for labs needing flexible, affordable fume containment.

\*\*Note: HEPA Filter sold separately.

### Features:

- **Ductless Design:** No external ventilation required; filtered air is recirculated safely back into the room.
- **Advanced Filtration:** Configurable carbon, HEPA, or ULPA filters to targeted containment of vapors, acids, and particulates.
- **Compact & Portable:** Low-profile footprint fits tight lab spaces and shallow countertops.
- **Clear Visibility:** Transparent panels provide 360° viewing and ambient light entry.
- **Safe Operation:** Internal airflow and velocity protect users from fume exposure.
- **Durable Build:** Polypropylene construction with chemical-resistant epoxy-coated steel support.
- **Easy Setup:** Self-contained, no ductwork or HVAC modifications needed.
